

### A Little Bit About Me

When I am not working, you can find me in the mountains with a fishing pole and tent! I absolutely love the outdoors, the environment, and the science around it. I believe that science, as well as science fiction, are both great tools to use when working with children!

### A Few of My Favorite Things

---

Season | Fall

Food | Potatoes

Book | "Harry Potter and the Prisoner of Azkaban"

Place | The Rocky Mountains

# Meet Ms. Alex

Hí! I'm Ms. Alex

Welcome!

Working with children and infants has always been a love of mine. I have always looked up to my teachers and dreamed of teaching others. My absolute favorite parts of the job are always supporting and encouraging others, especially little ones in reaching new goals. It is a beautiful thing to watch others grow, learn, and succeed, and I am so blessed to be able to watch it every day!

As a Colorado native, I believe that the beautiful outdoors is the greatest tool in teaching and engaging with kids. Even as a teenage babysitter I would always take advantage of using the outdoors as part of the classroom. Besides babysitting in my earlier years, I was an infant nanny and am so excited to expand my career here at THA.

Being with THA has really solidified, in my heart, how much I want to continue with this career which is why I have decided to continue my education to receive my lead qualifications! I am so excited to begin to get to know your kiddos and family and can't wait to create special bonds with every kiddo here.

Sincerely,  
Ms. Alex
